Greg, thanks for keeping an eye on the sites, could you keep a simple record of when you drive by the site in your travels and what you see? I look forward to getting the pictures.

The order did not require Pine View to stop construction. They have submitted a SWPPP and appear to have implemented controls. They also have submitted a permit application.

I spoke with Ed Mahoney of Deer Lodge Park and also BIA. BIA is concerned about any work being done. So, Mahoney will submit a plan (the plan he submitted is not adequate) I will review, and talk to BIA who will give him permission to do erosion control work. I will write a letter modifying the order.

Cameo order is being modified because of the archeological sites.

Rich Campbell is taking the lead to write a briefing paper for Wayne Nastri's visit to Carson City.

Subject: Administrative order status

Andrew,

Just wanted to follow-up w/ the AO at Pine View. There was a deadline of January 21, 2004 for PTP to submit for an NPDES permit and report actions taken to comply w/ the order. Has PTP done this as of yet?

I was at the Pine View Estates on January 23, 2004 and individuals were continuing to work on the houses(Roofers were putting shingles on). Was this an action that they were allowed to continue? Talking w/ the Washoe Tribe, they have observed continued construction(At the Phase IV of the project) at the site.

Please let me know if this is OK and if I can do anything else to assist you out here in Nevada. I have sent you a CD of pictures taken last week by the Washoe Tribe of the BMP's and the other sites.

Hope to talk w/ you soon.
